Mingjia Huo

217-953-1827 | mhuo@ucsd.edu | mignonjia.github.io/

Education

University of California, San Diego (UCSD) — *California, US*
PhD in Electrical and Computer Engineering (GPA: 4.0) — *Sep 2023 - June 2027*
· Advisor: Pengtao Xie, Shamim Nemati

University of Illinois, Urbana-Champaign (UIUC) — *Illinois, US*
MS in Electrical and Computer Engineering (GPA: 3.95) — *Aug 2020 - Dec 2022*
· Advisor: Kirill Levchenko

Peking University — *Beijing, China*
BS in Computer Science (Turing Class, GPA: 3.76, rank top 10%) — *Sep 2016 - Jun 2020*
· Advisor: Qun Huang

Research Projects

Multi-Modal Reasoning with Process Reward Model — *Oct 2024 - now*
· Leveraged the Phi-3.5B vision model to generate chain-of-thought reasoning steps on the ScienceQA and MathVista datasets.
· Applied Monte Carlo Tree Search (MCTS) to assign rewards to individual reasoning steps and utilized the results to train a process reward model (PRM).
· Fine-tuned the Phi-3.5B vision model with PRM on ScienceQA and MathVista datasets to enhance reasoning capabilities.

LLM Watermarking — *Sep 2023 - Feb 2024*
· Applied watermarking by adjusting LLM logits during LLM inference time to add watermark.
· Designed a multi-objective optimization framework to balance detectability and semantic coherence.
· Applied Gumbel-Softmax and a straight-through estimator to preserve gradients.
· Evaluated on C4 realnewslike dataset and showed our method significantly improved the Pareto frontier of detection-semantics trade-off curves.
· Analyzed the learned parameters with respect to part-of-speech (POS) tags.

Multi-Modal Large Language Model for Protein Function Prediction — *Jul 2023 - Aug 2024*
· Applied multimodal learning (LLAVA) to perform instruction tuning based on Llama2-13B on one million QA data points.
· Utilized Pytorch Distributed Data Parallel (DDP) for multi-GPU training.
· Evaluated the performance on open-text generations and classification tasks using F1-score, perplexity, BLEU, and SimCSE.
· Visualized the learned embeddings using t-SNE.

Working Experience

Trova AI, Inc. — *Illinois, US*
AI Software Development Intern — *May 2022 - Aug 2022*
· Conducted customer segmentation using clustering methods for Snap-on, a US manufacturing company.
· Performed feature engineering on the purchase history of 6 million customers spanning from 2010 to 2022.
· Trained XGBoost model to predict individual purchase intention, and improved F1-score by 14%.
· Presented findings to the company's leadership and the franchisee training sessions for deployment.

Biomap — *Beijing, China*
Machine Learning Engineer Intern — *Jul 2023 - Sep 2023*
· Leveraged xTrimoPGLM-1B as the encoder to extract protein embeddings from amino-acid sequences.
· Trained a lightweight adapter to map protein embedding to the embedding space of Llama2.

Skills

Tool	PyTorch, Matlab, Kubeflow, Snowflake, Adobe Illustrator
Programming	Python(Fluent), SQL(Fluent), C, C++

University Working Experience

2022	Teaching Assistant, CS 461: Computer Security I	*UIUC*
2022	Teaching Assistant, ECE 445: Senior Design Laboratory	*UIUC*
2019	Teaching Assistant, Theoretical Computer Science	*PKU*

Selected Awards

2019	**Fellowship**, Hui-Chun Chin and Tsung-Dao Lee Chinese Undergrad Research Endowment
2015	**Silver Medal**, Chinese Mathematical Olympiad
2015	**Gold Medal**, Chinese Girls' Mathematical Olympiad
